Emphasis of Matter

"ANNEXURE B" TO AUDITORS' REPORT

"ANNEXURE B" REFERRED TO IN THE INDEPENDENT AUDITOR'S REPORT ON THE STANDALONE FINANCIAL STATEMENTS OF BF INVESTMENT LIMITED FOR THE YEAR ENDED 31ST MARCH, 2018.

I have audited the internal financial controls over financial reporting of BF Investment Limited ("the Company") as of 31st March, 2018 in conjunction with my audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

My responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on my audit. I conducted my audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that I comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

My audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. My audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the Financial Statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In my opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

1. Company Overview :

The Company is a Non Deposit taking Core Investment Company, as defined in the Core Investment Companies (Reserve Bank) Directions, 2011. Since the Company is not a Systemically Important Non Deposit taking Core Investment Company, it is not required to obtain Certificate of Registration under Sec. 45-IA of the Reserve Bank of India Act, 1934.

Operating Cycle of the Company is considered to be of 12 months.

2. Some of the Associates of the Company, are in the process of finalising their accounts for the financial year ended 31st March, 2018 and hence, they have not yet submitted their audited standalone or, as the case may be, consolidated financial statements to the Company. The Company will prepare and publish consolidated financial statements, once the audited standalone, or as the case may be, consolidated financial statements of all the Associates become available to the Company.

Diminution other than temporary, if any, in the value of investments in the Associates could not be tested pending availability of their financial statements for the financial year ended 31st March, 2018 as stated herein before.

3. Statement of Significant Accounting Policies :

3.1 Basis of accounting and preparation of financial statements :

These financial statements have been prepared under historical cost convention and comply with the Accounting Standards, specified under Section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014 and the relevant provisions of the Companies Act, 2013. All income and expenses having a material bearing on the financial statements are recognized on accrual basis.

3.2 Use of Estimates :

The preparation of the financial statements in conformity with the GAAP requires that the Management makes estimates and assumptions, which affect the reported amounts of assets and liabilities, disclosure of contingent liabilities, as at the date of the financial statements, and the reported amounts of revenue and expenses during the year under report. Contingencies are recorded, when it is probable that a liability will be incurred and the amount can be reasonably estimated. Actual results could differ from those estimates.

3.3 Property, Plant and Equipment and Depreciation :

a) Property, Plant and Equipment :

Property, Plant and Equipment are stated at their original cost of acquisition including incidental expenses related to acquisition and installation of the concerned assets. Property, Plant and Equipment are shown net of accumulated depreciation, wherever applicable and amortization.

b) Depreciation and Amortisation :

- i) Depreciation on Property, Plant and Equipment other than vehicles, is calculated on straight-line basis using the rates arrived at based on the useful lives estimated by the management. Depreciation on vehicles, is calculated on written down value basis using the rates arrived at based on the useful lives estimated by the management.

Depreciation is charged on pro-rata basis for assets purchased / sold during the year.

The Management's estimate of the useful lives of various Property, Plant and Equipment which is in line with the provisions of Schedule II to the Companies Act, 2013 is given below.

Nature of the Asset	Estimated Useful Life
i) Furnitures and Fixtures	10 years
ii) Vehicles (Written Down Value Method)	8 years

3.4 Investments :

- a) Long Term Investments are carried at cost. Provision for diminution is made to recognize a decline other than temporary, in value of investments.
- b) Short Term Investments are carried at lower of cost and fair value.

3.5 Investment Property :

Investment Properties are carried at cost less depreciation and impairment, if any. Investment properties are capitalised and depreciated (where applicable) in accordance with the policy stated for Property, Plant and Equipment. Impairment of investment property is determined in accordance with the policy stated for impairment of assets.

The Management's estimate of the useful lives of investment properties is given below.

Nature of the Asset	Estimated Useful Life
i) Buildings	60 years

3.6 Revenue Recognition :

- a) The Company recognises income on accrual basis. However, revenue recognition is postponed in respect of specific items of income, where the ultimate collection, thereof is uncertain.
- b) Interest income is accrued over the period of the loan / investment.
- c) Dividend is accrued in the year in which it is declared whereby a right to receive is established.
- d) Profit / loss on sale of investments is recognised as per the terms of the underlying contracts.

3.7 Employee Benefits :

Employee benefits comprise amounts paid for the services of the Key Management Personnel on deputation. No separate provisions of retirement benefits or privilege leave benefits of such employees are recognized in the books of the Company.

3.8 Taxation :

- a) Tax expense comprises current and deferred tax. Current income-tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.
- b) Deferred income taxes reflect the impact of timing differences between taxable income and accounting income originating during the current year and reversal of timing differences for the earlier years. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted at the reporting date. Deferred income tax relating to items recognized directly in equity is recognized in equity and not in the statement of profit and loss.

Deferred tax liabilities are recognized for all taxable timing differences. Deferred tax assets are recognized for deductible timing differences only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. In situations where the Company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognized only if there is virtual certainty supported by convincing evidence that they can be realized against future taxable profits.

At each reporting date, the Company re-assesses unrecognized deferred tax assets. It recognizes unrecognized deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be that sufficient future taxable income will be available against which such deferred tax assets can be realized.

The carrying amount of deferred tax assets are reviewed at each reporting date. The Company writes-down the carrying amount of deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realized. Any such write-down is reversed to the extent that

it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

- c) Minimum alternate tax (MAT) paid in a year is charged to the statement of profit and loss as current tax. The Company recognizes MAT credit available as an asset only to the extent that there is convincing evidence that the Company will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. In the year in which the Company recognizes MAT credit as an asset in accordance with the guidance note on "Accounting for Credit Available in respect of Minimum Alternative Tax" under the Income-tax Act, 1961, the said asset is created by way of credit to the statement of profit and loss and shown as "MAT Credit Entitlement." The Company reviews the "MAT credit entitlement" asset at each reporting date and writes down the asset to the extent the Company does not have convincing evidence that it will pay normal tax during the specified period.

3.9 Impairment :

The management has a policy to review at each balance sheet date, the carrying amounts of its assets to determine whether there is any indication that those assets were impaired. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of impairment loss. Recoverable amount is the higher of an asset's net selling price and value in use. In assessing value in use, the estimated future cash flows expected from the continuing use of the asset and from its disposal are discounted to their present value using a pre-tax discount rate that reflects the current market assessments of time value of money and the risk specific to the asset. Reversal of impairment loss is recognized immediately as income in the statement of profit and loss.

3.10 Earnings per share :

In determining earnings per share, the Company considers the net profit after tax and includes the post tax effect of any extra-ordinary / exceptional item, if any. The number of shares used in computing basic earnings per share is the weighted average number of shares outstanding during the period.

3.11 Provisions, Contingent Liabilities and Contingent Assets :

A provision is recognized when the Company has a present obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

Where the Company expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the statement of profit and loss net of any reimbursement.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

Contingent assets are neither recognized nor disclosed.

3.12 Cash flow statement :

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

3.13 Cash and cash equivalents :

Cash and cash equivalents for the purposes of cash flow statement comprise cash at bank and in hand and short-term investments with an original maturity of three months or less.

ANNEXURE - A TO THE INDEPENDENT AUDITORS' REPORT

ANNEXURE - A TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE CONSOLIDATED FINANCIAL STATEMENTS OF BF INVESTMENT LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with my audit of the consolidated financial statements of the Group as of and for the year ended 31st March, 2018, I have audited the internal financial controls over financial reporting of BF Investment Limited (hereinafter referred to as "the Holding Company") and its associates and jointly controlled entities, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Boards of Directors of the of the Holding company and its associates and jointly controlled entities, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

My responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on my audit. I conducted my audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, both, issued by the ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that I comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

My audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. My audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

I believe that the audit evidence I have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for my audit opinion on the internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- a) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- b) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of Management and directors of the company; and
- c) Provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper Management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In my opinion, the Holding Company and its associates and jointly controlled entities, which are companies incorporated in India, have, maintained in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2018, *except in case of one associate as mentioned below*, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

In case of Synise Technologies Limited

Basis for Disclaimer of Opinion by auditors of Synise Technologies Limited is as follows :

"In our opinion, to the best of our information and according to the explanation given to us, sufficient appropriate evidence for the system of internal financial controls over financial reporting of the Company and its subsidiary company was not made available to us to enable us to determine if the Company has established adequate internal financial controls over financial reporting and whether such internal financial controls were operating effectively as at 31st March, 2018.

We have considered the disclaimer reported above in determining nature, timing and extent of the audit tests applied in our audit of financial statements of the Company and its subsidiaries and the disclaimer does not affect our opinion on the financial statements of the Company."

Other Matters

My aforesaid report under section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting of the Holding Company, in so far as it relates to seven associate companies and two jointly controlled entities, which are companies incorporated in India, is based on corresponding reports of the auditors of such companies incorporated in India.

1. Company Overview :

BF Investment Limited is a public company domiciled in India. The Company is a Non Deposit taking Core Investment Company, as defined in the Core Investment Companies (Reserve Bank) Directions, 2011. Since the Company is not a Systemically Important Non Deposit taking Core Investment Company, it is not required to obtain Certificate of Registration under Sec. 45-IA of the Reserve Bank of India Act, 1934.

2. Statement of Significant Accounting Policies :

2.1 Basis of accounting and preparation of Consolidated financial statements :

These consolidated financial statements comprise the financial statements of the Company, its associates and its jointly controlled entities (together referred to as 'the Group'). These consolidated financial statements of the Group have been prepared under historical cost convention and comply with the Accounting Standards, specified under Section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014 and the relevant provisions of the Companies Act, 2013. All income and expenses having a material bearing on the financial statements are recognized on the accrual basis.

The Group has ascertained its operating cycle as twelve months for the purpose of current / non-current classification of assets and liabilities.

2.2 Principles of consolidation :

These consolidated financial statements of the Group have been prepared in accordance with the Accounting Standard 23 "Accounting for Investments in Associates in Consolidation" and Accounting Standard 27 "Financial Reporting of Interests in Joint Ventures" as notified, and also in accordance with the Accounting Standard 21 "Consolidated Financial Statements" to the extent applicable.

Automotive Axles Limited, jointly controlled entity and Kalyani Steels Limited, an associate have prepared their financial statements for the financial year ended 31st March, 2018 in accordance with accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. These consolidated financial statements have been prepared considering separate abridged consolidated financial statements of Kalyani Steels Limited and the separate special purpose audited financial statements of Automotive Axles Limited, for the financial year ended 31st March, 2018, both prepared in accordance with the Accounting Standards, specified under Section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014 and the relevant provisions of the Companies Act, 2013.

These consolidated financial statements have been presented, to the extent possible, in the same format as that adopted by the Holding Company for its standalone financial statements.

Associates

The Group's investment in its associates is accounted for under the equity method. An associate is an entity in which the Group has significant influence.

Under the equity method, the investment in an associate is carried in the balance sheet at cost plus post acquisition changes in the Group's share of net assets of the associates. Goodwill related to the associate is included in the carrying amount of the investment and is neither amortised nor individually tested for impairment. The consolidated statement of profit and loss reflects the share of the results of operations of the associates. Unrealised gains and losses resulting from transactions between the Group and the associates are eliminated to the extent of the interest in the associates.

After application of the equity method, the Group determines whether it is necessary to recognise decline, other than temporary, in the value of the Group's investment in its associates, such reduction being determined and made for each investment individually. The Group determines at each reporting date whether there is any objective evidence that the investment in associate is impaired.

Section 129(3) of the Companies Act, 2013 requires preparation of consolidated financial statements of the Company and all of the subsidiaries including associate companies and jointly controlled entities in the same form and manner as that of its own. Accounting Standard (AS) 23 on Accounting for Investment in Associates in Consolidated Financial Statements defines Associate Company as an enterprise in which an entity has significant influence and which is neither a subsidiary nor a joint venture of that party. It mentions that if an investing party holds, directly or indirectly through intermediaries, 20% or more of the voting power of the enterprise, it is presumed that the investing party does have significant influence, unless it can be clearly demonstrated that this is not the case.

Subsequent expenditure on an intangible asset after its purchase is recognised as an expense when incurred unless it is probable that such expenditure will enable the asset to generate future economic benefit in excess of its originally assessed standards of performance and such expenditure can be measured and attributed to the asset reliably, in which case such expenditure is added to the cost of the asset.

2.11 Foreign currency transactions :

Transactions in Foreign Exchange are accounted at the exchange rates prevailing on the date of the transaction. Monetary assets and liabilities denominated in foreign currency at the Balance Sheet date are translated into rupees at the exchange rate prevailing on that date. Gains or losses arising on settlement/ restatement are charged to the Consolidated Statement of Profit & Loss.

In case of items which are covered by forward exchange contracts, the difference between the year end rate and rate on the date of the contract is recognized as exchange difference and the premium paid on forward contracts is recognized over the life of the contract.

2.12 Research and development :

Revenue expenditure on Research and Development is charged to the Consolidated Statement of Profit and Loss. Capital expenditure on research and development is treated in the same way as other property, plant and equipment.

2.13 Borrowing Cost :

Borrowing costs include interest, amortisation of ancillary costs incurred and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Costs in connection with the borrowing of funds to the extent not directly related to the acquisition of qualifying assets are charged to the Consolidated Statement of Profit and Loss over the tenure of the loan. Borrowing costs, allocated to and utilised for qualifying assets, pertaining to the period from commencement of activities relating to construction / development of the qualifying asset upto the date of capitalisation of such asset is added to the cost of the assets. Capitalisation of borrowing costs is suspended and charged to the Consolidated Statement of Profit and Loss during extended periods when active development activity on the qualifying assets is interrupted.

2.14 Provision for Warranty :

The estimated liability for product warranties is recorded when products are sold. These estimates are established using historical information on the nature, frequency and average cost of warranty claims and management estimates regarding possible future incidence based on corrective actions on product failures. The timing of outflows will vary as and when warranty claim will arise - being typically upto three years.

As per the terms of the contracts, the Company provides post-contract services / warranty support to some of its customers. The Company accounts for the post-contract support / provision for warranty on the basis of the information available with the Management duly taking into account the current and past technical estimates.

2.15 Taxation :

- a) Tax expense comprises current and deferred tax. Current income-tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.
- b) Deferred income taxes reflect the impact of timing differences between taxable income and accounting income originating during the current year and reversal of timing differences for the earlier years. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted at the reporting date. Deferred income tax relating to items recognized directly in equity is recognized in equity and not in the consolidated statement of profit and loss.

Deferred tax liabilities are recognized for all taxable timing differences. Deferred tax assets are recognized for deductible timing differences only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. In situations where the Group has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognized only if there is virtual certainty supported by convincing evidence that they can be realized against future taxable profits.

At each reporting date, the Group re-assesses unrecognized deferred tax assets. It recognizes unrecognized deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be that sufficient future taxable income will be available against which such deferred tax assets can be realized.

The carrying amount of deferred tax assets are reviewed at each reporting date. The Group writes-down the carrying amount of deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realized. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

- c) Minimum alternate tax (MAT) paid in a year is charged to the consolidated statement of profit and loss as current tax. The Group recognizes MAT credit available as an asset only to the extent that there is convincing evidence that the Group will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. In the year in which the Group recognizes MAT credit as an asset in accordance with the guidance note on "Accounting for Credit Available in respect of Minimum Alternative Tax" under the Income-tax Act, 1961, the said asset is created by way of credit to the statement of profit and loss and shown as "MAT Credit Entitlement." The Group reviews the "MAT credit entitlement" asset at each reporting date and writes down the asset to the extent the Group does not have convincing evidence that it will pay normal tax during the specified period.

2.16 Impairment :

The management has a policy to review at each balance sheet date, the carrying amounts of its assets to determine whether there is any indication that those assets were impaired. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of impairment loss. Recoverable amount is the higher of an asset's net selling price and value in use. In assessing value in use, the estimated future cash flows expected from the continuing use of the asset and from its disposal are discounted to their present value using a pre-tax discount rate that reflects the current market assessments of time value of money and the risk specific to the asset. Reversal of impairment loss is recognized immediately as income in the consolidated statement of profit and loss.

2.17 Earnings per share :

In determining the earning per share, the Group considers the net profit after tax, and includes the post tax effect of any extra-ordinary / exceptional item, if any. The number of shares used in computing the basic earnings per share is the weighted average number of shares outstanding during the period. The number of shares used in computing diluted earnings per share comprises the weighted average shares considered for deriving basic earnings per share and also the weighted average number of equity shares that could have been issued on the conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period unless issued at a later date.

2.18 Provisions, Contingent Liabilities and Contingent Assets :

A provision is recognized when the Group has a present obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

Where the Group expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the consolidated statement of profit and loss net of any reimbursement.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Group does not recognize a contingent liability but discloses its existence in the consolidated financial statements.

Contingent assets are neither recognized nor disclosed.

2.19 Cash flow statement :

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Group are segregated based on the available information.

2.20 Cash and cash equivalents :

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

2.21 Leases :

Assets taken on lease where the company acquires substantially the entire risks and rewards incidental to ownership are classified as finance leases. The amount recorded is the lesser of the present value of minimum lease rental and other incidental expenses during the lease term or the fair value of the assets taken on lease. The rental obligations, net of interest charges, are reflected as secured loans. Leases that do not transfer substantially all the risks and rewards of ownership are classified as operating leases and recorded as expense as and when the payments are made over the lease term.
